Lobbysign LCD^{plus}

standing out

LobbysignLCD_{plus}

The LobbysignLCD_{plus} is at the forefront of digital signage, combining visual high technology, contemporary elegance and portability. Its design, impact and ease of use are the essential qualities that make the LobbysignLCD_{plus} an invaluable tool for businesses and organisations to communicate and inform.

Screen Impact

The LobbysignLCD_{plus} is both a sign and a screen. It gives unique impact to all kinds of information and images displayed. The unusual "Portrait" format of the screen inside the housing, by its nature, draws peoples' attention and makes reading and viewing images appealing.

Bespoke and dynamic sequences of pages appear with text either on coloured backgrounds or blended with any choice of images. Whether it be notices, messages, announcements or events, the LobbysignLCD_{plus} is hard to ignore.

Unique Appearance

The Lobbysign's sleek and professional design gives the best first impression in both contemporary and traditional locations. The powder painted neutral surround provides a clean background to give maximum effect to the illuminated screen.

Easy to Operate by Office Staff

The LobbysignLCD_{plus} simply plugs into the mains, and within a short space of time your images appear. With the wireless keyboard or via the network, the image sequence can be interrupted, new messages easily created with our user friendly software, and your own images selected.

LobbysignLCD with Computer or Media Player

The LobbysignLCD_{plus} uses an inbuilt or external PC or controller and our own software which has been specially developed to enable users to enter and modify messages simply and easily.

The alternative is a media player which enables pre-prepared images and text to be displayed, simply by inserting a memory stick.

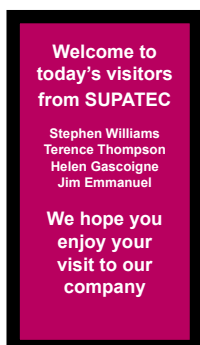

Technology and Service

The LobbysignLCD_{plus} requires no regular maintenance and is highly durable and reliable thanks to the use of top grade components. Technological piece of mind is ensured by Brackenbury's professional back-up team, with its quick response, expertise and unrivalled after-sales service.

General Specifications
